Mr. Verdin stated that the purpose of the discussion is to review the detailed, multiple-phase projects in the six-year Capital Improvement Program (CIP). He demonstrated how to use the ClearGov software that manages the FY 27 CIP budget and explained how the platform supports the capital budgeting and prioritization process.

Mr. Verdin demonstrated the functionality of ClearGov, including how to track budgetary updates, return on investment, fiscal year, project, strategic initiative, department, scope, and cost. He stated that, generally, projects are weighted by scope, budget availability, and value to the Town.

There was discussion among the Commission and staff about how to use and best practices for the ClearGov software. The main topics of discussion included:

1. Planning Commission and Town Council Capital Improvement Project initiation and approval process.
2. CIP prioritization and weighting system.
3. Funding mechanisms, along with regional, state, and federal grant sources.

5. Relation of the CIP to the Comprehensive Plan.
6. Town Council budget approval process.
7. Enterprise funds and the rate models being utilized by the Town.
8. Parking and infrastructure constraints associated with capital projects.

The Commission requested that staff provide a list of the prioritization guidelines and weighting criteria, along with a separate guidance document, in advance of the next Planning Commission work session.
